Consultation – Speed Indicator Device on Joe Lane

Introduction

Catterall Parish Council purchased a new Speed Indicator Device (SPID) in 2020. The SPID displays the speed of approaching vehicles and displays a sad face to vehicles exceeding the speed limit.

The SPID not only shows the speeds that cars are travelling at, it also provides valuable data, such as traffic volumes, average speeds, maximum speeds, etc. It does not identify individual vehicles or record vehicle registration numbers.

The data is shared with the Police on a monthly basis and helps to build a picture of speed issues in Catterall and whether any interventions are required. In recent months we have seen a PCSO led Community Road Watch on Cock Robin Lane and the mobile speed camera on Garstang Road.

Headline reports from the SPID can be viewed, by all, on the Parish Council website at <https://www.catterallparish.org.uk/other-documents.php>

The SPID is moved to a new position at the start of the month. There are currently 8 locations in Catterall.

Location #	Road Name	Lighting Col. No.	Aimed at traffic travelling.....
1	Catterall Gates Lane	LC 5	Westbound (on offside)
2	Baylton Drive	LC 4	SW bound
3	Garstang Road (B6430)	LC 21	Northbound
4	Garstang Road (B6430)	LC 23	Southbound
5	Garstang Road (B6430)	LC 30	Northbound
6	Garstang Road (B6430)	LC 48	Southbound
7	Cock Robin Lane	LC 6	NE bound
8	Cock Robin Lane	Post by Stone Cross Gardens	SW bound

The Proposal

It is known locally that a relatively high proportion of vehicles exceed the speed limit on Joe Lane. By periodically positioning the SPID here, it is hoped that this will help to educate drivers and calm traffic.

The scheme involves the permanent installation of a galvanised steel post complete with mounting brackets. The proposed Joe Lane post will have brackets on both sides to enable the SPID to face in either direction.

The identified location is between number 34 and 36 Joe Lane.
